Our Purpose
The purpose of this association is to prepare, support and motivate students to pursue further education and further opportunities towards a career in the healthcare field. The association will participate in Campus-led and Community-led service learning opportunities and volunteer opportunities, educational seminars and workshops, field trips and presentations from healthcare professionals. This student association is open to ALL students, CTE and Transfer!

Benefits
- **Health professional shadowing** opportunities with local health professionals
- **Seminars and panel presentations** focusing on admissions criteria, test preparation, internships and more
- **Service-learning opportunities** to gain leadership skills and give back to the community
- **Networking** with professional students, admissions officers, school administrators, human resources personnel, and influential health professionals
- **Workshops and field trips** to healthcare facilities that will build self-esteem, and empower and motivate students on how to prepare themselves to meet the challenges of the health workforce
- **Academic counseling and career advising** from professional staff
