MORVEDT RETURNS FROM EUROPEAN FIELD STUDY

"It only costs a nickel to ride the subway in Russia -- but the trains stop coming about 8 minutes after midnight."

Conversations with Dean Donald Morvedt, recently back from a month's European tour are punctuated with such zingers as the one above. Although students and friends find these observations interesting, the dean gained much deeper values from his visits with educators in England and on the European continent.

With about 15 hours of air travel that will only last about April. Because the students are required to join the union 30 days from date of employment, they will have recall rights. After two months they become seniors in the college and students are working in the assembly and the warehouse. These activities are performed by students who are also happy with their job performance and their attendance is better than some non-students."

MAIL CALL

The following students have mail in the office: Emily Arel, Larry Decker, Geneon Dritz, Marie Ateri, Patricia Stead, Tom Darby, Payson Davis, Juan Mecum, Irene Saweld, Bruce Whitehead, Edith Yal- otsa, Richard Dopyon, Gail Ann Whitted, Curt Wagner.

Some of the mail has been in the office since February.

ADVISIN G DAY IS APRIL 11

ON BECOMING A MAN

by S. P.

There is a time when a man may feel depressed. A time when he can feel an ache in his breast. When despairing might take hold of his hand. Because some people won't call him a man.

Some act as if this person does not exist. They drive him to harsh words and a clinging fist. And so from some places he is barred or banned. With never a reason why he isn't really a man.

There are those who will reject him as they scoff or scorn, Yet all he has to blame is a pigment with which he was born. And the wretched misfits will do all they can, To make him feel and seem less a man.

Some will deal with him differently than others. But still they smile and tell him we are brothers, And at one time, behind his back, his tears they will come. While loudly proclaim he is a full-grown man.

Thus, this male matures in a world where love is lacked, In a world where white is black and black is white. And so this terrible unbalanced situation stands, Where a man may get small choice to become a man.

Many who are working on their income tax returns, at times wish the Indians had fought harder—Lee Call, Star Valley (Afton, Wyo.) Independent.

IN MY OPINION
by ALAN DICKSON

Our country is presently involved in a bloody war in the jungles of Vietnam which is robbing the lives of hundreds of young Americans each month. We are in Vietnam to stop the spread of the infectious disease of communism which is plugging the free world. If communism is allowed to spread to such a degree that the whole of Asia becomes communist controlled the security of the United States and its people would be on a razor's edge.

The United States has taken the role of fighter for the free world on its shoulders. We have committed more than 400,000 of our young men to the jungles of this war torn country. The young Americans fighting in Vietnam are the backbone of our free America. In their hands rest the weapons which will help provide security to the people of the free world, the world which we love.

In my opinion we belong in Vietnam. We must do our part in protecting the people of the free world, However, for the love of peace I cannot reason out why we must supply all the financial aid and most of the, manpower needed in this war. Why must we deplete our colleges of our young people who want only to become educated, respectable citizens of their country, while other nations remain apathetic to world conditions?

Our country is the most criticized nation in the world. The exact people we are fighting to protect are calling us war mongers, imperialists, and killers of women and children, yet let the spread of communism spread into their country and their cry for help is the loudest, and what do we do? We forgot them and help them.

It's time for our country to stop turning its back and show its teeth. Presently we are trading goods, such as wheat, corn, and barley to these communist countries. Let us show these countries that we are not the weak spine nation which make us out to be, We are an economically and militarily strong freedom loving nation.

Let us stop trading strategic resources with these nations which continuously protest our actions and support our enemies. Let us turn our ears away from international opinion and pursue our beliefs.

Let us bomb the hell out of Vietnam and end this bloody war as quickly as possible so the young Americans can return home. Do matter how you look at it -- the future of America, whether it be war or peace -- lies in the hands of the young Americans, if the young people of this country are going to fight their country's battles, then they should have something to say about its affairs.

Please remit your remarks pertaining to this article by writing to the Lancer office -- if you have the desire to voice your opinion.

S.W. - 10-12-31
GOING TO SCHOOL IN A SALOON
by MARK GOSSICK

Would you believe the three main buildings used by Canton College were once a cigar factory, a saloon, and a livery stable?

The oldest building is what we now know as Dahn Hall, but to early Cantonians it was a cigar factory owned by Armstrong and Dean, around 1870. About 1892 Gilroy & Son Grocery took over the building and ran a successful business until 1916 when they sold the business to Canton Gas and Electric. It remained in that ownership until several years ago when Canton leased the building for use of the college.

In the early 1900's Kuechan Hall was the Peter Pfizen building. It was a well known tavern and restaurant until the 1940's when half of it became Kuechan's Bakery. Kuechan's Wholesale Cake business soon got out of it and left Kuechan with the entire building. His business occupied the building until three years ago. Epserson and Johnson livery barn was the south part of Swartzbaugh Hall in 1903. The other half was owned by the Wight family and later by the Metzapers. The Whiting ran a bar line in Canton for many years at that site. The men owned the building until the late 30's when Daim Swartzbaugh Implement took over. So Canton College does have more than a six year history.

The oldest of the college buildings, Dahn Hall, was a cigar factory in the late 1890's.

Southwest corner of the Square

Part of Swartzbaugh Hall was once the Epserson and Johnson livery barn.

YMCA CORNERSTONE DISCLOSES HISTORY OF CANTON

The YMCA added to the history of Canton with the opening of the cornerstone of the new building, the cornerstone disclosed old photographs, identification cards, a Bible and a copy of the Canton Daily Register, dated February 21, 1935.

The paper displayed advertisements from Blyth's Drugs, Staley, Canton National Bank, Smith, and Dettmers, businesses still existing in Canton. A newspaper on the front page and throughout showed a flare for the dramatic. The Register's front page alone consisted of the announcement of President Dwight D. Eisenhower, chicken supper, Woodrow Wilson's remodeling, and the Lodi Aid Society meeting of the United Brethren Church. The Register's back had the advantage of today's reporters, reading the Register before making a fairy tale.

The paper typifies the style of past year's YMCA echoes "Off with the Old, On with the New." Today's journal is used to bring the new and the old together.

"Younger," he said, "are asking for someone in their educational institution to help them establish and share values, to talk about love and marriage, and not just about career opportunities." Geneva's Journal has a history that parallels the YMCA's present role.

Anyone can
GOOF-

With Eaton's Corrasable Bond Typewriter Paper, you can erase that goof without a trace.

Not a telltale smudge remains. A special surface permits quick and easy erasing with an ordinary pencil eraser. For perfect papers, get Corrasable. In light, medium, heavy weights and Onion Skin in handy 100-sheet packets and 500-sheet ream boxes.

From these opinions and others you can see that the "Gungo-" is destined to fill a need of recreation. Facilities for the Student Senator.
Easter bunnies, better known as Larry Kent, Jack Flanagan, and Ron Torrey, all members of Sigma Iota Nu fraternity, ready Easter baskets for the children enrolled in a nearby school for the educable mentally handicapped. Members filled baskets for each child in the classroom.

SS INITIATES GREEK COUNCIL

The Student Senate has initiated a Greek Council plan whereby the Greek organizations on campus will send two members to a meeting supervised by a Senate member.

Senior members hope this will increase harmony between the organizations and ensure each group submitting a schedule of events in advance for the school calendar.

SS ELECTIONS SCHEDULED FOR APRIL 27

Candidates for officers of the Student Senate may pick up their petitions between April 10 and 21, officers announced last week.

After petitions have been signed and submitted, members of the Student Senate will examine them. New officers will assume their duties at the last meeting of the year.

The first petition deposited in the office will have that candidate's name listed first on the ballot.

A general election will be held April 27. Candidates are not allowed near the voting booths the day of election. College students must display their identification cards in order to vote.

No candidate may run for more than one position. He must have a C average in academic work to be eligible to run for office and to keep his office. Elected officials must be full-time students and are expected to serve for two semesters after election.

The two losing candidates receiving the highest number of votes regardless of the offices for which they are candidates will be named as a lone representative at-large.

Five freshmen will be elected to the Senate for the coming semester.

SAT WELCOMES NINE SISTERS

After Sigma Alpha Theta's Hall Night on March 30, nine girls were invited to join the organization.

The prospective members are as follows: Elaine Young, Doris Wise, Kris Wilson, Patricia Worford, Sherri White, Linda Miller, Kay Crone, Ethel Compton, and Marthe Costello.

HELL NIGHT signified the conclusion of the vigorous six-week pledge period for these girls. An initiation dinner will be held during the first part of April.

WBYS has two events planned—a dance with Bill Marsh's band playing, and a spring proct for the crippled Children's Center in Peoria.

The Noisy World

Dr. Oliver L. Welsh, chief of the audiology unit of the Veterans Administration Outpatient Clinic, announced a loud noise in the New England Journal of Medicine.

Industry studies have shown that continued exposure to a noise level of 80 decibels has brought about loss of hearing. A jet takeoff ramp renders 117 decibels, a loud power motor 107, a subway train 95, and a kitchen food blender in the home 40.

The magazine report says the problem is just the beginning. Noise in any machine is related to power output. This is growing in home and industry.

FRUIT FOR THOUGHT

Only the grapes grown near Jersey de la Puenta, in Spain, go into famous Spanish Sherry, which derives its name from the area.

Catcher Jesse Pence gets a little pre-
liminary practice in the gym getting ready
for a busy Crusader baseball season.

In high school, Pence was the reg-
ular catcher for his last two
years, smuggling the ball at a .393
pace his junior year, and hit for a
.300 his senior year. He also led
the squad in RBIs.

In three years with the Amer-
ican Legion team he compiled a
batting mark of more than .300
and took care of the catching job
in a spectacular fashion.

In an interview with this re-
porter, the Galena catcher
explained that some pitchers
have been pumping a little and
offered a constructive bit of cri-
ticism while others need a good
tongue lashing to make them
straighten out.

"Runners always steal off the
catcher," said Pence in upholding
the dignity of his position on the
diamond. It seems likely, how-
ever, that pitchers were sing-
ing the same tune with differ-
ent lyres.

The season opened with a dou-
ble header with Huntington here
on April 4. "Amigo" hopes to see
everyone at the games.

WHAT WILL THEY BE DOING

by Pete Joseph

Bob Martin, the 6'9" sopho-
more from Prairie City-
Burlington, has one
month on the career at Canton College. He
averaged 500 and seven rebounds a game. Two schools
under Hasti at the
time are Kentucky Wes-
leyan and Michigan State.

"Hasti's" greatest thrill as a
capor was blistering the nets
against Daville for 39 points.

Summy Growers, 9'10" sopho-
more All-starter from Chicago
DuSable, repeatedly kept the fire
going in the smoker to help lead
Canton to the playoffs at LIU.

"It's hard to get up, physically
and mentally for a third or fourth
place playoff at LIU." - If you have
your heart set on first, and you
love, man you just don't feel up
to it." So says the kid with the
nonchalant swagger and "shad-
es.

Getting to know Summy is hard.
He's a real character, the further you
get, the deeper you got to know him.
There is a swell feeling that
CCL is sure going to miss,
along with his 23 point scoring

TUGIE TALKS......

by GERRY TUGIE

Canton head baseball coach, Harry Smith, in his ninth year at
the helm of the Crusaders is optimistic and cautious about this
year's team.

Pitching is the big question mark for Smith so far. Only four
members on the squad are back and none of them are hurlers.

A total of nine pitchers are trying for starting roles and as of now
it looks like lefty Dave Gustafson is number one man and Dick
Stark, Steve Jones, and Basketbeller Al Furl, will also be in rotation.

Defensively, the Crusaders should be in real good shape as all
four of the returning lettermen are infielders.

Joe Ballhorn is back to fill the spot at first base, although Tom
Hobbs is still looking pretty good around the first base area.
Smith has not yet designated who will fill that position.

Elvis Jones and Fred Smith make up the Keystone combo at second
and short, and Mike Martin appears to have third base nearly clinch-

Smith pointed out that all positions are still open and everyone
has a chance to make the team.

The season opened on April 4, but it will take the first three of four
games before Smith can decide who will get permanent starting
minutes.

The Crusaders are playing a little bit tougher schedule this year
that they did a year ago when they compiled an 18-7 record.

Some of the tougher games on top will include the Eastern and
Western Howard Township teams and a game next week against
Bradley and Parsons.

Bob Filler will assist Smith with the coaching duties. Filler once
played shortstop and was a fine hitter for the Caterpillar Tractor
baseball team that went to the National AAU finals in Wichita
back in the late 1930's. He is also one of 13 applicants being
considered for the head baseball coaching job at Lewiston High
School.

Getting off the baseball kick for a second, it might be well to note
the National Basketball Association's current ruling concerning
high school and college basketball.

The new rule prohibits the use of the dunk or stuff and also for-

such the use of the stool game.

This has caused quite a stir among some of the college
coaches, but one who might be particularly spoiled is Cliff Lewis,
head coach of the Houston Cougars, who lost to UCLA in the semi-
finals of the NCAA tournament.

Lewis appeared before a press conference the day before and
was definitely in favor of the stool shot.

"We teach the stuff shot," Lewis said, "We've had as many as
35-30 in one game and I think it's the most thrilling shot in basket-
ball. I've seen guys shoot it in from 30 feet out and the crowd sits
on its hands. Then somebody stuffs it just the whole place comes
up. "I guarantee you one thing," Lewis added, "If you get a chance
time Hayes stuffs one. He was referring to All-American Elvin
(Big J) Hayes, who scored 20 points in the game with UCLA de-
spite the presence of big Lew Alcindor.

Another controversy that has been kicked around in taverns, pool
halls and gathering places across the nation is the question - Who
would win in the fight between heavyweight champ Cassius Clay
(Mohammed Ali) and professional basketball's superstar, Wilt
Chamberlain.

Chamberlain, hailed by many, the strongest athlete in the world,
would have a 14 inch reach advantage on Clay and many bar room
boxing authorities will content that Clay would never get close enough
to even talk to Chamberlain.

The fight itself will probably never come about because neither
Clay nor Chamberlain care to fight each other.

Oscar Robertson, the famed Cincinnati Royal guard, was asked
what he thought of Chamberlain's chances against Clay.

The Big O did not say much about that pair-up, but he said he
would bet on Mohammed Wayne Embry in the ring with the
Cassius Clay, at $150 and 365 pounds, is one of the few men in the
NBA that Chamberlain has ducked in push around.

Getting one last word in for Harry Smith and the Crusader base-
ball team, Canton is scheduled to play Robert Morris today at the
Athletic Park.

The Crusaders then take to the road for five games and will
return to play Parsons on April 19.

PASS FAIL SYSTEM PROPOSED

Hartford, Conn. — Trinity College has instituted a pass-fail system this fall. The proposal, as approved by the faculty in the following form, states:

"At registration a junior or senior may elect at part of regular full-time program one-half or one full course, not offered or required by his major department, and not fulfilling one of his basic requirements, in which he may request to be graded with either "Pass" or "Fail." This election, having once been made, may not subsequently be changed. 

"Full credit will be granted for a course which has been graded as "Pass," or "Fail." The student will have the same effects upon academic standings as the regular grade of "F.""

"In the determination of average rank, etc., pass-fail will have no quality point value, and such determination will be based upon the regular letter grades received."

An amendment to the proposal placed the "pass-fail" option on a two-year trial basis with a review at the end of that time.
